EVERYDAY IS COVERED

EVERYWHERE YOU WORK WE'VE GOT YOU COVERED

Regardless of your workload, we have your truck covered in style and utility. Distinct features and adherence to your truck's size and performance, we stay true to both form and function by providing you with easy access to your tools combined with secure storage options.

Work in style with A.R.E. truck caps and accessories. Outfit your truck with a quality built cap designed to last the life of your truck.

A.R.E. 
Outfit for Work®

Get to Work with a COMMERCIAL ALUMINUM CAP

The Right Tool for Your Truck

A.R.E.'s rugged welded frame construction offers years of durable service, no matter what the weather or job. Each unit has weather-sealed doors with gas props, heavy-duty hinges, and automotive-style locks to protect your valuables.

DCU MAX™

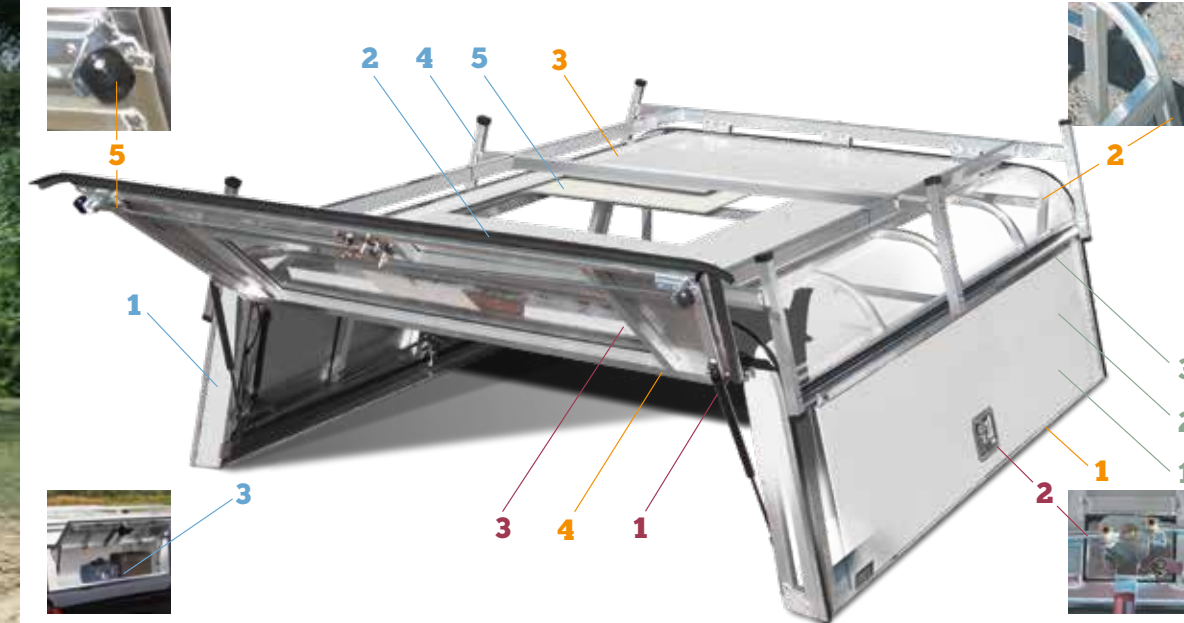

**DCU
DIAMOND EDITION™**

FEATURING

BOLT

BOLT™ One-Key Technology

Options

- 1 Height** – A.R.E. has four standard heights plus three wedge heights to meet your specific capacity needs. (Height and wedge availability varies by model.)
- 2 Rear Doors** – A.R.E. offers many door styles for your rear access needs.
- 3 Side Toolboxes** – Toolboxes are made of .036 galvanized steel with a baked white coat or .063 diamond plate, depending on model. The bins can be customized to include dividers and fold-down shelves.
- 4 Roof Racks** – A.R.E. offers many different racks to meet your specific hauling needs. Extra cross bar supports are available.
- 5 Vapor Barrier Insulation** – Optional acrylic fabric liner provides protection from condensation.

Structure

- 1 Baserails** – 0.80" thick T6 aluminum baserails with MIG welded corners provide a strong foundation.
- 2 Structural Tubing** – .050" thick T6 aluminum tubing framework with TIG welded joints provides strength and support with minimal weight.
- 3 Exterior Skin** – .035" (DCU Series®), .063" (DCU MAX™) or .063" diamond plate (Diamond Edition DCU™) thick aluminum exterior skin for superior structure.
- 4 Door Frames** – A.R.E. builds all styles of doors with the same .050" thick wall tubing used in the body frame. All TIG welded joints and continuous hinges assure alignment and durability.
- 5 NEW Roller Rods** – One-hand operation to provide easy access and improved seal.

Finish

- 1 Body Colors** – A.R.E. offers our DCU Series® in white, light gray or black and our DCU MAX™ in white. The color is baked enamel finish applied to the aluminum skin at the mill. The color is not meant to provide a match to any OEM truck paint, but is intended to accent the truck's appearance without the cost of custom painting.
- 2 Custom Axalta® Paint Finishes** – Optional two-stage ChromaPremier® paint is offered in any OEM or fleet color code formula. Applied in our downdraft booths and baked on for durability.
- 3 Trims** – Edge trims are offered in black or white.

Components

- 1 Gas Props** – Our gas props are set to the optimal pressure to assist in lifting and closing each cap door.
- 2 Latches and Locks** – All doors are equipped with Strattec® BOLT™ One-Key Technology. The folding T-grip latch handle is durable and offers top security. The cam action deadbolt lock rods with the center point lock provide lifelong trouble-free operation. All latches and locks have 500 hours non-corrosion finish.
- 3 Windows** – A.R.E. offers radius dark tinted tempered safety glass in all doors. Optional heavy aluminum mesh security screens deter unwanted entry.

Build Your Perfect Commercial Aluminum Cap

Follow these 12 steps and check options clearly. ☒ Consult your local A.R.E. dealer for more details or with questions regarding any of the options shown here.

1 Choose Your Model

DCU DCU Series (.035")

- Strength and durability for everyday use
- Heavy-duty .035" aluminum skin
- Standard 1/2 rear door
- Standard full length side door
- Available in wedge style
- Galvanized steel toolboxes with baked white coating

DCU MAX NEW! DCU MAX (.063")

- Increased strength and durability for the toughest work environments
- Heavy-duty .063" aluminum skin
- Stainless steel strap hinges on double or single full doors
- Galvanized steel toolboxes with baked white coating

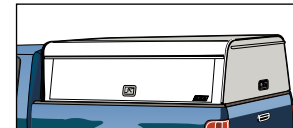

DE Diamond Edition DCU (.063" Diamond Plate)

- Increased strength and durability for the toughest work environments with added style
- Heavy-duty .063" diamond plate aluminum skin
- Stainless steel strap hinges on double or single full doors
- Diamond plate toolboxes

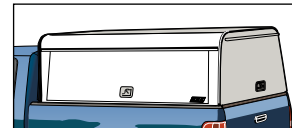

2 Choose a Cap Height

A. Select the appropriate height for your needs. Consider headroom, accessibility and the amount of overall space you need.

11 Increase Visibility and Safety with our Back-Up Camera Option

A. This 7" monitor will replace your rear view mirror unless you want to mount it to your dashboard.

Option 1:

☐ Back-up camera with 7" monitor

Option 2:

☐ Back-up camera with 7" monitor and dashboard mount

Option 3:

☐ Back-up camera with wiring harness (uses trucks existing monitor)

12 Choose Rear Door Security Option

A. By safely securing your vehicle with Slick Locks puck locks in combination with their patented Spinner 360™ and Weather Shield™, you will be fully equipped with the most preferred vehicle locking system on the market today!

Slick Locks

☐ NOTE: For double full rear doors only

Commercial Aluminum Cap Warranty

A.R.E. warrants to the original purchaser of Commercial Aluminum truck caps that they are free from defects in structure, materials and workmanship for a period of three years from the date of purchase from an authorized A.R.E. dealership. See the dealership for a copy of the full warranty statement.

200+ Possible Cap Options!

With 200 or more variations to choose from, you can create the perfect cap to fit your work needs. Our rugged, fully welded frame construction offers years of durable service, no matter what the weather or job. There's a reason that the A.R.E. DCU Series® is the only truck cap that received a 10 out of 10 rating by Handyman Magazine readers.

OUTFIT FOR WORK®

HD SERIES™

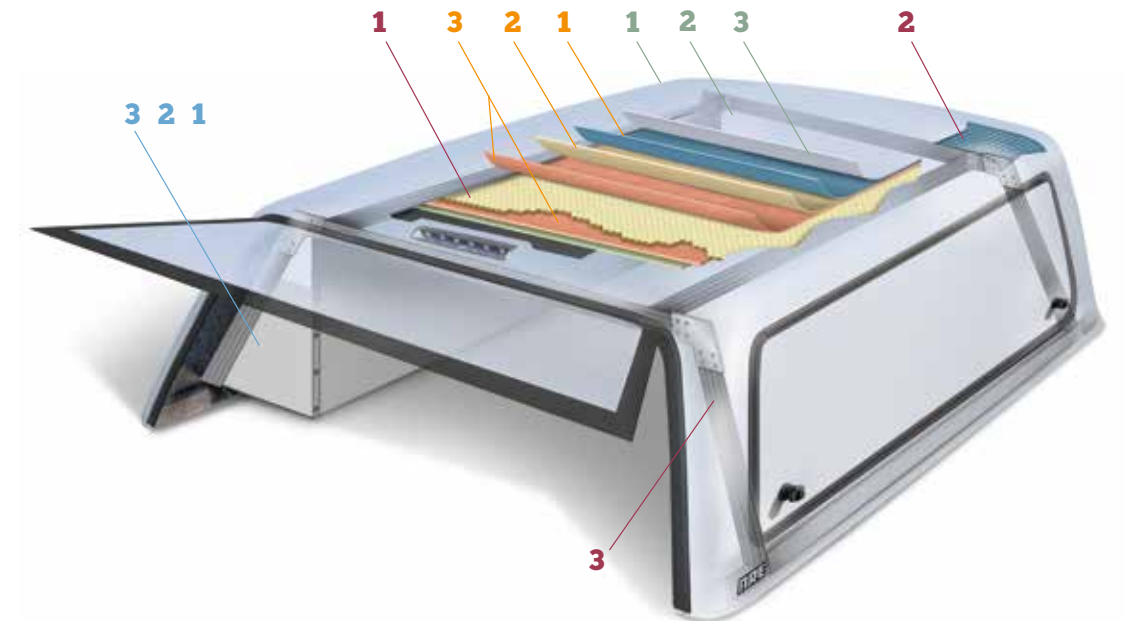

Contractor-Grade Durability

There has never been a stronger and more durable fiberglass truck cap than the A.R.E. HD Series™. Available for our CX and MX Series cap profiles, the HD Series™ features an internal skeleton which triples the weight capacity of the roof rack and side toolboxes. If you test the limits of your truck, and need your cap to be up for the challenge, the A.R.E. HD Series™ truck cap is the only choice!

BUILT TO DO MORE

Fiberglass Styling. Heavy-Duty Performance.

Options

- 1** 2 Models CX or MX
- 2** Rear Doors – Aluminum paneled rear door with folding T-handles & BOLT One-Key Technology
- 3** Side Toolboxes – Diamond plate toolboxes depth 12"–16" depending on truck model (200 lb weight rating per box).
- 4** Roof Racks – 3 different racks to meet your specific hauling needs.

Structure

- 1** Sandable Primer Gelcoat – 0.80" thick T6 aluminum baserails with MIG welded corners provide a strong foundation.
- 2** Unique Polyester Resin Fiberglass Laminate
- 3** Low Filled Resin Fiberglass – Resin fiberglass provides a superior structure.

Finish

- 1** Body Colors – A.R.E. offers our HD Series™ cap in any color to match your truck body.
- 2** Clear Coat Exterior – Lasting paint protection.
- 3** Automotive Grade Paint – Two-stage ChromaPremier® paint is offered in any OEM or fleet color code formula.

Strength

- 1** Reinforced Roof
- 2** Extra Reinforcement
- 3** Internal Aluminum Skeleton

HD Series™ Warranty

A.R.E. warrants to you, the original retail purchaser of an A.R.E. HD Series™, that the body will be structurally free from defects in material and workmanship for as long as you own your cap and the original vehicle. The body includes the fiberglass shell and mounting rails only. A.R.E. warrants to you, the original purchaser, for as long as you own your cap that the exterior paint will not abnormally fade or peel due to material or workmanship defect faster than the original pickup it was installed on by an authorized A.R.E. retail dealer.

The internal skeleton frame will be warranted for three (3) years from your retail date of purchase against failure due to defects in material and workmanship.

All other hardware will be covered under standard A.R.E. fiberglass truck cap warranties.

The A.R.E. HD Series™ has been designed to carry 550 lbs evenly distributed on the HD Series™ roof rack and 200 lbs evenly distributed in each toolbox.

CAUTION: The weight of this product and the weight of the cargo it was designed to carry may be more than your truck was designed to carry on the bed rails. Please consult your truck manufacturer.

WARNING: The use of this product may raise your vehicle's center of gravity, especially when loaded. Higher center of gravity is known to increase the chance of vehicle rollover.

Trust the Leader

When you purchase our cap for your truck, you have over 600 North American A.R.E. dealerships ready to serve you. Major leasing companies rely on A.R.E. to provide caps and service to thousands of vehicles they own nationwide. You deserve the same peace of mind that they enjoy. See your local authorized A.R.E. dealer today to order the work cap that meets your needs.

3DL Series™

Unparalleled Access

A.R.E.'s Commercial Division is expanding its product line with the new 3DL Series™. Available for many of today's trucks. This new tonneau cover exemplifies another innovative design from A.R.E. that makes loading and unloading easier for service workers. The 3DL Series™ turns the bed of the truck into an organized and readily accessible tool container that keeps dust and other elements out.

Standard Features

- Two doors on each side
- The entire cover opens effortlessly from the rear of the truck using a hinge system at the front of the cover
- New roller rods for side doors allow for one-hand operation to provide easy access and improved seal
- Painted to match (automotive base-coat/clear-coat)
- Design offers the driver excellent rear visibility from the cab of the truck
- Designed to keep products secure and out of sight
- Patented Palm Handle (black)

Optional Features

- Remote keyless entry
- Rival LED strip lighting technology to illuminate the bed
- J-box toolboxes

Specifications:

- Adds over 4" above the truck bed rail of additional storage space

Optional J-Box Toolbox

Rival LED Rope Light Option
Activated When Any Door Opens

Remote Keyless Entry Option

LSII Series™

#1 Fiberglass Tonneau

The LSII Series™ offers truck specific styling, premium components and a unique lift assist system for user friendly opening and closing. With a sleek, clean appearance, a proven lock/latch system, a dry and out-of-sight storage area for tools and equipment and better rear visibility when backing up, this industry-leading tonneau cover is a best seller, and for good reason.

The LSII Series™ gives technicians and supervisors who live in gated communities with vehicle restrictions the ability to take their work trucks home.

The LSII Series™ allows a pickup to get better gas mileage than it would with an open bed.

Cargo Management Solutions

The Easiest Way to Load and Unload

Say goodbye to the aggravation of a normal truck bed. With a CargoGlide® bed slide, you can stop crawling in the back of your truck or van every time you need to reach your gear. So stop scuffing your knees and breaking your back! Install a CargoGlide® in your truck and get your gear and materials out where you need them!

CargoGlide offers models that hold 1,000 lbs., 1,500 lbs. or even 2,200 lbs. Their full extension models slide out of the bed 100%, so you can eliminate the risk of injury for you or your employees.

Combined with an A.R.E. Truck Cap or Cover, the CargoGlide allows you to get maximum use out of your truck bed!

Choose Your CargoGlide®

CG1000
1000 lbs. capacity

75% of the cargo tray length slides out on short bed trucks and 70% on long beds. Sturdy steel frame construction. Real plywood deck with a laminated surface for strength and durability. 6 bearings total, 2 full complement permanently sealed ball bearings, 2 side thrust and 2 powerful needle bearings provide dependable lasting support for the cargo you haul in your CargoGlide.

Industrial 4" high extruded 6061-T6 thick anodized aluminum side rails with a slot style infinitely adjustable tie down track around all 3 sides, and includes 4 adjustable marine-grade tie down eyebolts to make securing cargo easy and versatile.

CG1500XL
1500 lbs. capacity

100% of the cargo tray length slides out for total access to your cargo. Real plywood deck with a laminated surface for strength and durability. 36 bearings total, 4 full complement double row, 16 single row permanently full complement sealed ball bearings and 2 cam follower sealed needle bearings provide dependable lasting support for the cargo you haul in your CargoGlide. This slide also has 14 more sealed side thrust bearings that make it slide easier when used on uneven ground.

Powder coated industrial 4" high extruded 6061-T6 aluminum side rails with a slot style infinitely adjustable tie down track around all 3 sides, and includes 4 adjustable marine-grade tie down eyebolts to make securing cargo easy and versatile. 8" high side extensions on the first 4' of the slide at the cab end helps contain more cargo.

CG1500
1500 lbs. capacity

75% of the cargo tray length slides out on short bed trucks and 70% on long bed trucks. Sturdy steel frame construction. Real plywood deck with a laminated surface for strength and durability. 8 bearings total, 6 full compliment permanently sealed ball bearings and 2 side thrust bearings provide dependable lasting support for the cargo you haul in your CargoGlide.
